

Before You Appoint a Driveway Contractor

Print this checklist and ask every contractor the same questions. If another contractor can answer yes to every question, you will be comparing like for like.

- | | | |
|-----|---|--|
| 1. | Are they insured? | |
| 2. | Are they an approved installer? | |
| 3. | Will they specify sub-base depth? | |
| 4. | Are utilities scanned? | |
| 5. | Is drainage designed? | |
| 6. | Is waste legally removed? | |
| 7. | Is there a written specification? | |
| 8. | Is workmanship guaranteed? | |
| 9. | Who owns the machinery? | |
| 10. | Will the person quoting actually supervise? | |

If another contractor can answer yes to every question, you will be comparing like for like. If they cannot, the difference is not just price; it is the quality of what you are actually buying.

Driveways by Hinchliffe answers yes to every question above. Book a free site assessment and receive a written specification before any work begins.
